

UI INTERFACE FOR HOME AUTOMATION SYSTEM

First screen
when the app
is open

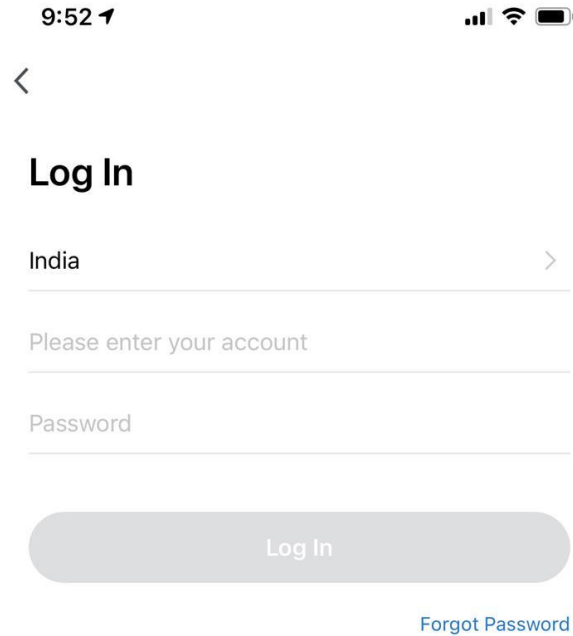

If you are new user
then click on the
Register Button and
the page should be like
this.

Note: no need of the
country name,
I need
*Name
*Email id
*Password
*And login button
but the UI should be
like this.

The image shows the register screen of the app. At the top, there is a status bar with the time 9:51 and signal icons. Below the status bar, there is a back arrow icon. The title 'Register' is displayed. Below the title, there is a dropdown menu for 'India' with a right arrow. Below that, there is a text input field for 'Email Address'. Below the input field, there is a rounded rectangular button labeled 'Get Verification Code'. At the bottom, there is a checkbox with the text 'I Agree [User Agreement](#) and [Privacy Policy](#)'.

If you are existing user then click on the Login with existing account Button and the page should be like this.

9:52

Log In

India >

Please enter your account

Password

Log In

[Forgot Password](#)

Note: no need of the country name, I need

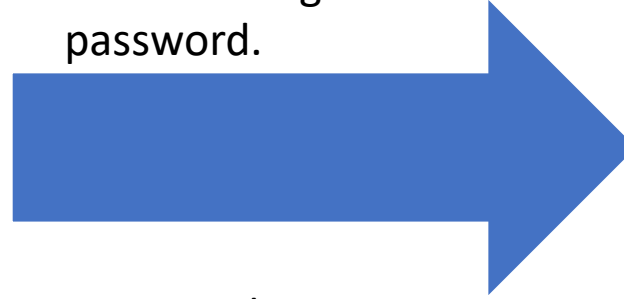

- *Email id
- *Password
- *And login button

but the UI should be like this.

 Sign in with Apple

Login means that you agree with [User Agreement](#) and [Privacy Policy](#)

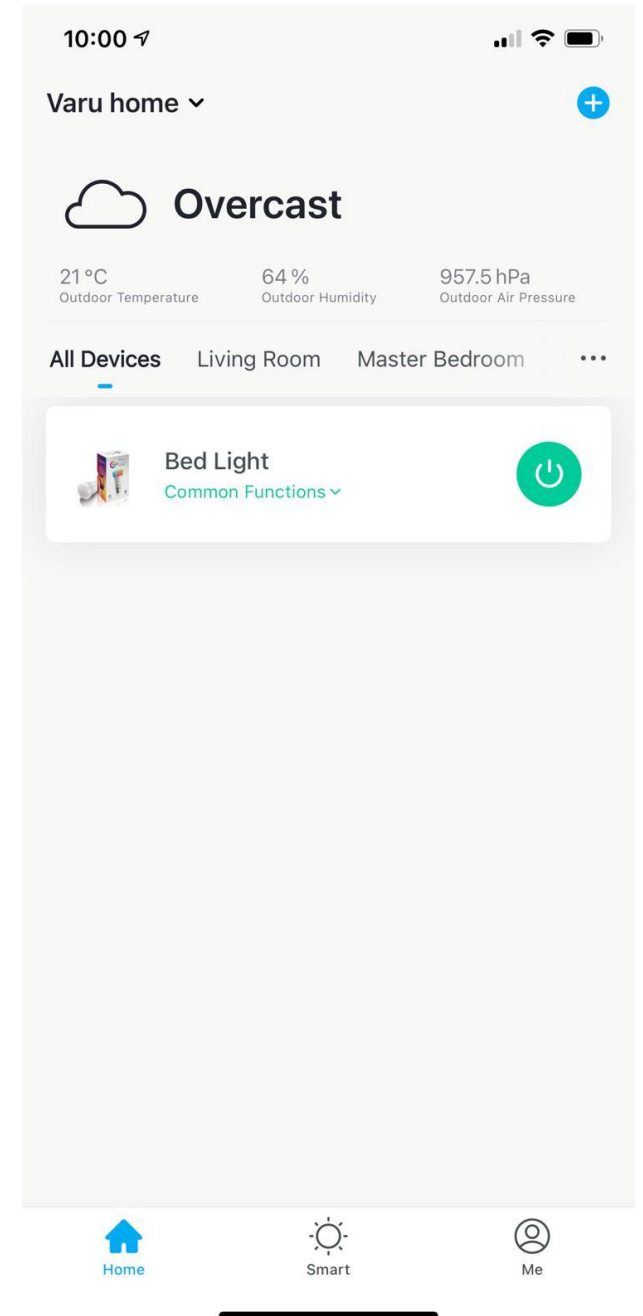

When you click on the login button; if the successful login then this page should open else it should show the display message please check the login id or password.

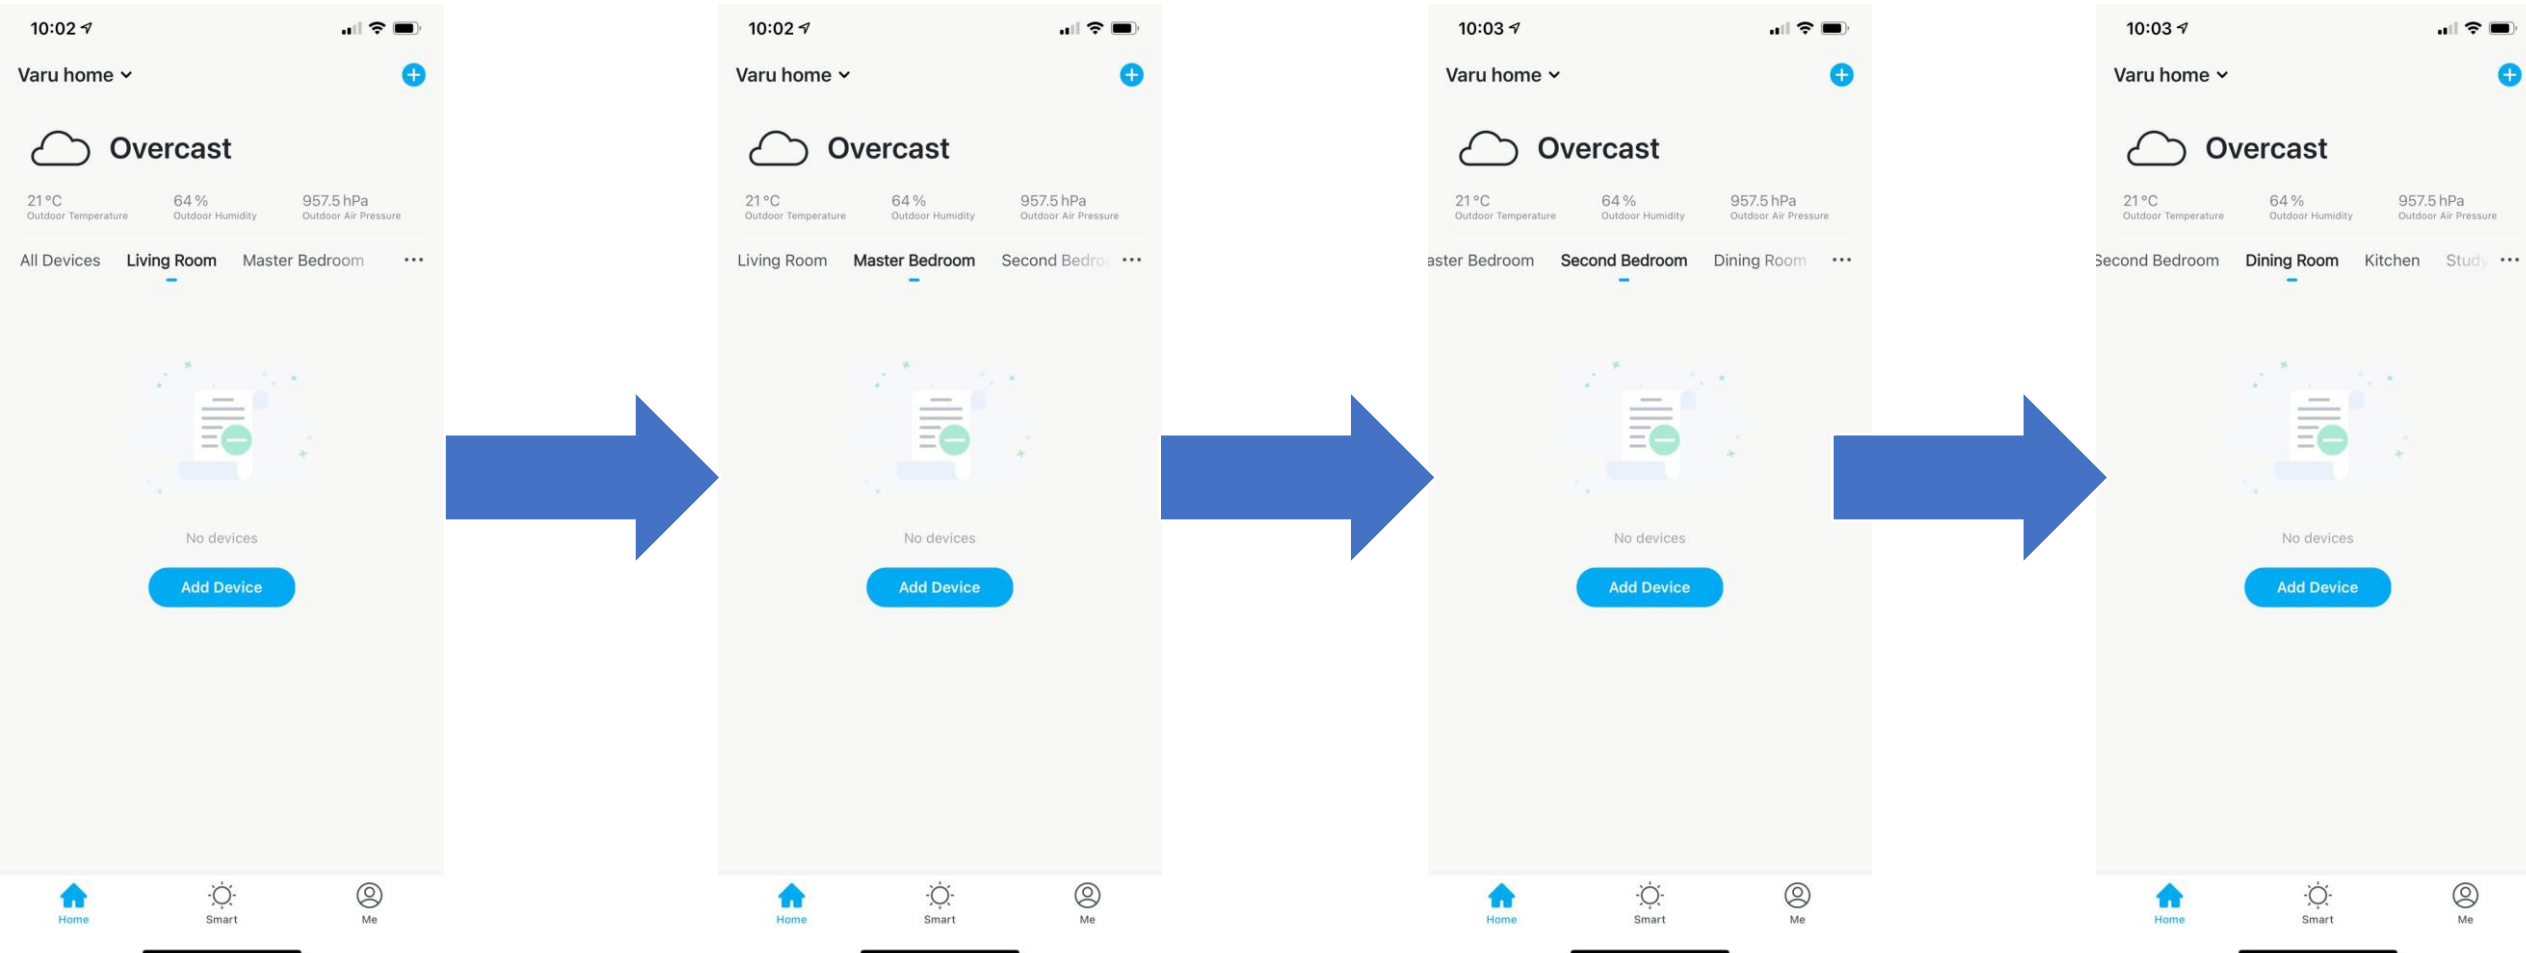

Note: In this page I don't need

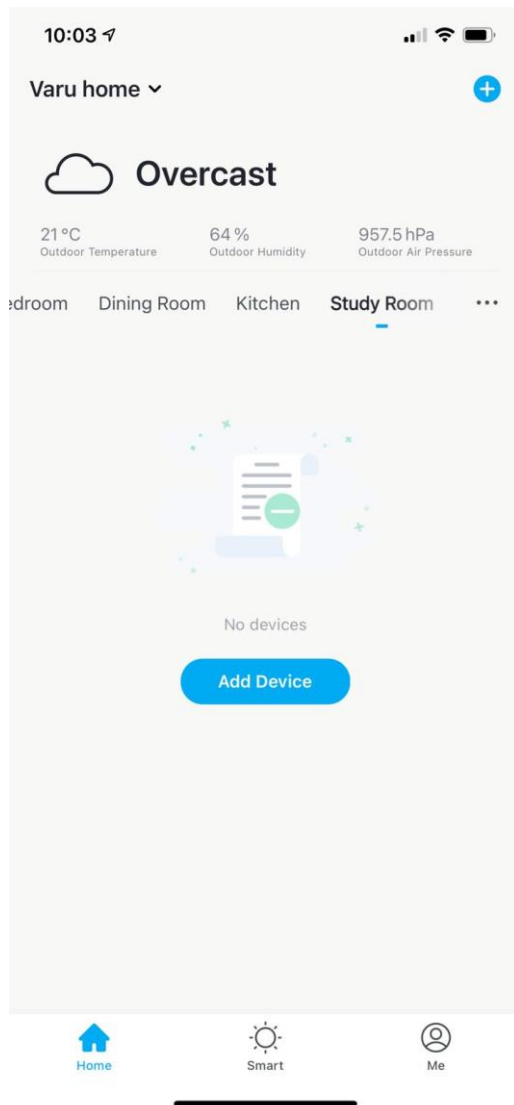

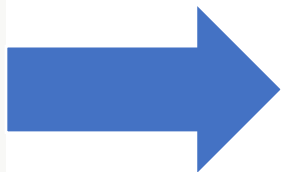

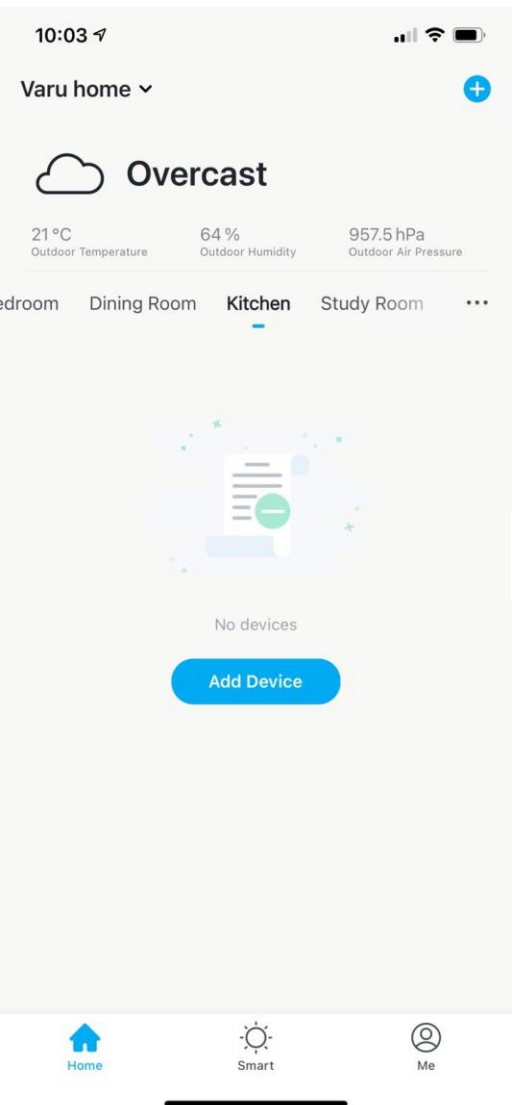

- *over cast bar
- *varu home
- *smart icon at the button
- *instead of the bed light button I need add device button.

but the UI should be like this.

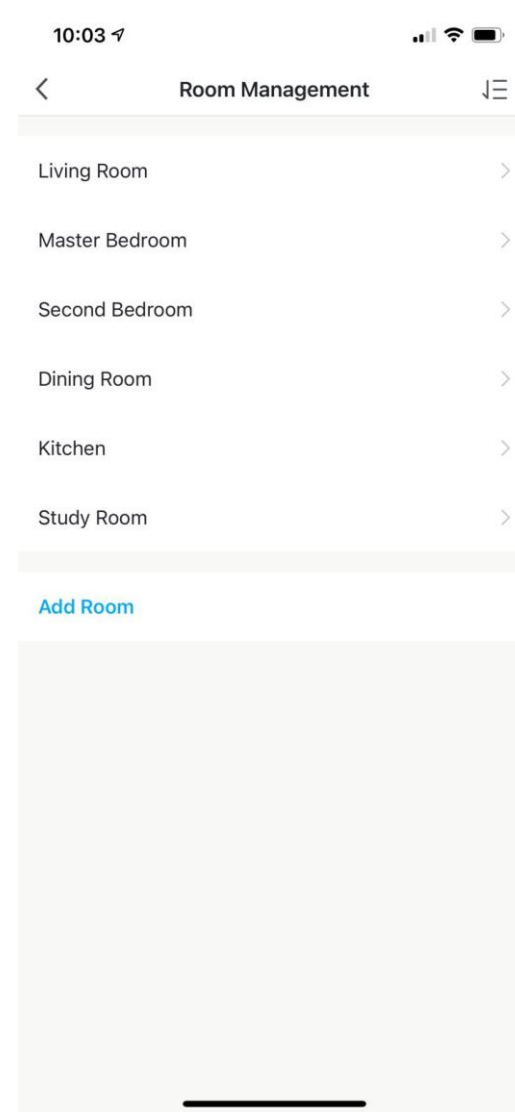

This are the tabs I need Living room Master Bedroom etc
Ignore overcast and smart button at the bottom

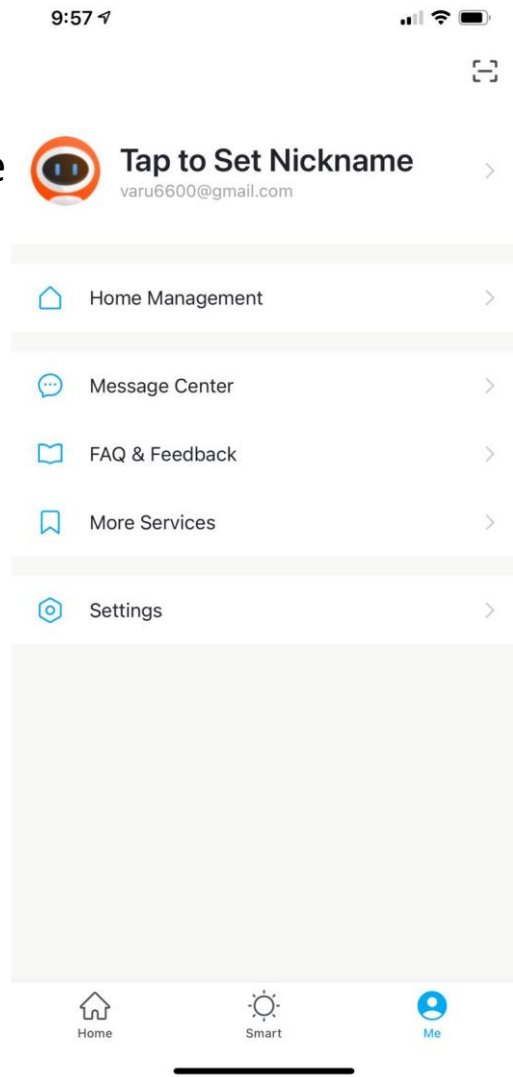

When you click on the three dots button it should open this page and you can add the add room with our custom name.

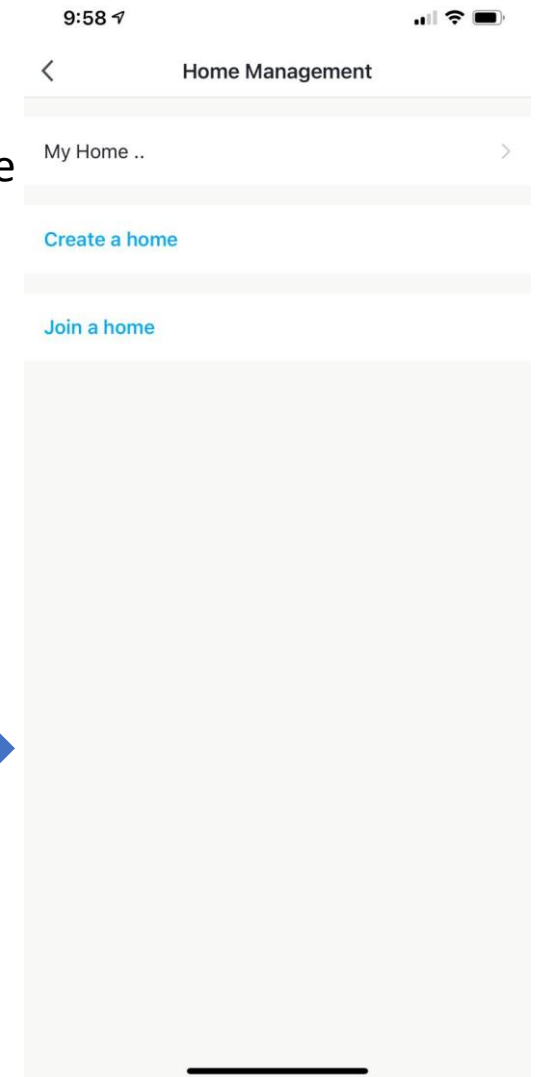

When you click on the me button it should open this page and I need Home management and Settings tab.

you can ignore this

- Message centre
- FaQ tab
- More services

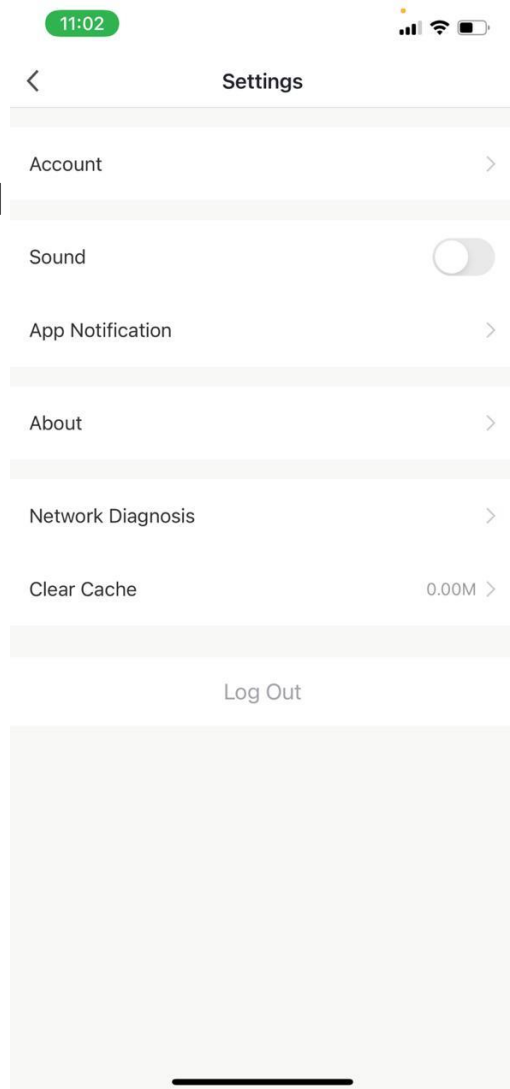

When you click on the Home Management button it should open this page and In this there should be an option to create a room and make available to the family members, so the other family members can login with there own account and they can add to this room by scanning the Qr code or aa unique id.

When you click on the settings button it should open this page

you can ignore this tabs

- Network Diagnosis
- Clear Cache
- About

When you click on the Account button it should open this page

In this you can merge the two pages into one

you can ignore this tabs

- Profile Photo
- Account and security
- Temperature Unit
- Time zone
- Region
